

FOR THOSE WITH ALZHEIMER'S AND OTHER DEMENTIA RELATED DISEASES

We incorporated our more than 20 years of assisted living experience into the design of this family owned home, especially for residents suffering from dementia.

With our new, modest sized facility, most professionals agree that memory impaired individuals function better when they live in a smaller environment with a familiar group of people. Our tranquil, secure home encourages feelings of security, freedom, and independence that may help to reduce the need for some medications, therefore enhancing the quality of life for our residents.

We provide and offer a full range of services carefully planned to offer a supportive environment for residents with the special needs that may result from memory loss.

- Hygiene Care (Bathing/Grooming)
- Assistance with Self-Feeding
- Incontinence Care and Supplies
- Housekeeping/Laundry Services
- Medication Assistance & Care Coordination

Experienced/Trained Supervision

Understanding that a special level of care is required when working with memory impaired residents; we have taken great care to assemble a highly trained staff of professionals. Our L.P.N., Administrator/Care Manager is a "Certified Memory Impaired Specialist." Our residents have 24 hour protective supervision by caring and compassionate "Care Specialists." Our staff is specially trained in Alzheimer's disease and related dementias including behavior management interventions.

Family Participation and Support

We are passionate about providing individualized care for each of our residents. We believe that open and honest communication with families serves as the foundation for the best possible care of your loved one. We know that Alzheimer's disease and other forms of dementia affect the entire family. That's why we take special care to offer support of each resident's family with regular Family Support Meetings, as well as full access to our Family Resource Library.

Come see the difference!

We know that you will have many questions about how Sunshine Gardens Crystal River Assisted Living's approach to care can meet your family's unique needs. We cordially invite you to visit our home, meet our staff, and see for yourself.
